### **DETAILED ACTION**

This is a Restriction and an Election of Species for application number 10/727,769 Swing Down Fuel Tank Bracket filed on 12/4/03. Claims 1-21 are subject to election/restriction.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to a pivoting bracket, classified in class 248, subclass 218.4.
- II. Claims 16-21, drawn to a method of moving a cradle of a bracket, classified in class 212 subclass 294.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the method of moving a cradle may be used for hoisting and lifting other cylindrical objects including a log.

Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper.

Art Unit: 3632

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
